## Soil Erosion and Sedimentation Control (All earth changes will require review)

When might a permit from the Environmental Health Division be required?

1. If your project involves **disturbing soils** over an area of **one or more acres**.
2. If your project is **within 500 feet** of a **lake, stream, river, drain, or other water body**.
3. All projects involving earth moving activities that disturb **more than 225 square feet** (an SESC waiver **might** be issued for projects disturbing **less than 225 square feet**).
4. If your construction project is for a **permanent dwelling or a large-scale addition** to an **existing home**.

If you answered **yes to any of the questions** a SESC permit or verification that no permit is required will be needed as part of your Zoning permit application.

Zoning applications for projects such as decks, porches, swimming pools, small additions, and small accessory buildings **may** be reviewed in house. This **does not prohibit** an SCHED representative from conducting a site visit to determine whether or not a SESC permit will be required.
