

The 2023 Local Streets Rehabilitation project includes the streets and corresponding repairs shown on the map below. Contractor will typically work 7am-7pm, Monday-Friday.

July 5-14 - Streets with Pavement Removal/Replacement will be closed to through traffic during daily construction operations while maintaining access to residential and business driveways.

July 17-21 - For streets with Chip Seal/Fog Seal, traffic will be controlled via flaggers as the work is conducted. During the Chip Seal process, after the aggregate is placed and until the excess is swept away, vehicular speed will be limited to avoid damage by loose stones. The Fog Seal will be applied within 48 hours of the Chip Seal and the street will be temporarily closed for a couple of hours as it cures.

Additionally, the City has contracted with SCRC and its contractor to perform preventive maintenance crack filling on even more streets and similar to the Chip Seal/Fog Seal, traffic will be controlled via flaggers. This work is scheduled for the fall (2023).

Please check the website for schedule updates. Also, if you have questions regarding the project, please contact Laingsburg City Hall at 517-651-5374

Thank you for your assistance and cooperation as we continue to improve our streets.
