What is GivingTuesday?

Celebrated on the Tuesday following Thanksgiving (November 28), GivingTuesday inspires community members to give back to the causes and issues that matter to them. Fueled by social media, this massive wave of giving and collaboration demonstrates how much power we have to create change. Learn more and see the video at givingtuesday.org

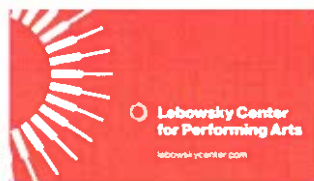

The #raiseUPshiwasseee Story

We are stronger when we come together to improve our community. United together under the hashtag #raiseUPshiwasseee the Shiawassee County collaborative effort has worked hard to connect nonprofits with those who Give Back to Shiawassee. Over the past six years, more community connections were sparked through service and/or giving. Those efforts reinvigorated connections between ourselves as nonprofits working together and strengthened connections within our community.

This year's goal is to continue the collaboration by inspiring local business owners and their employees to give where they work and live! Be a part of the #raiseUPshiwasseee movement by giving back to the causes and issues that matter to you!

On #GivingTuesday (November 28), Shiawassee County residents will have another opportunity to help support community organizations that support your employees, their families and your investment in this community.

Your donations of time, talents and treasures (\$) from our 2023 campaign will help support our local nonprofits so they are able to continue their important work.

Visit raiseupshiawassee.org and see what your donations are doing to benefit the community.
